

School Library Spotlight

 **School Name:**
Kennedy Krieger Fairmount School

 **Location:**
Baltimore, MD

 **Lessons Launched**
17,667

Challenges

- Time consuming to create lessons from scratch
- Challenging to meet with other teachers

How it started

The Admin let all the different campuses know about the School Library and the High School campus in particular ran with it.

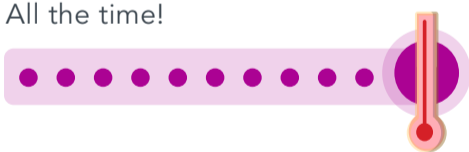

Today...

The High School in particular uses the School Library as a collaborative model. Within the High School the classrooms are very similar. Teachers will add lessons to the School Library, and others will download from the School Library and modify if needed. Because many teachers co-plan, School Library offers a space for organization and collaboration.

Frequency of use

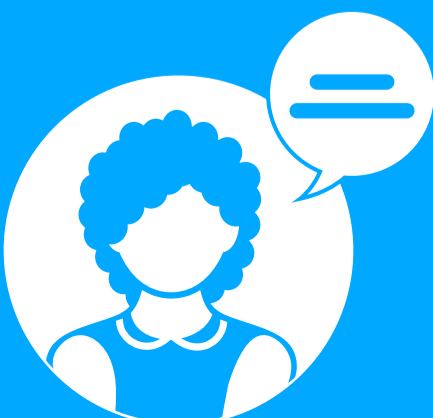

All the time!

Benefits

- Cuts down on required meeting time
- Offers an ability to collaborate
- Creates one aggregated space with all the resources they need

TESTIMONIAL

School Library is a place where you can go and have all the materials and everything already online that are created and you can pull all the different resources that you need.
